Subject: Request for Donation of One Desktop Computer for Government Higher Secondary School

Dear Team VTREE,

I, **Shri.Muralidharan**, Headmaster of **Government Higher Secondary School, Manjini**, respectfully request your kind support in providing **One (1) desktop computer** for our school.

Our school has around **320 students** studying in various classes. Although computer education forms an important part of the curriculum, the available computer facilities are insufficient to meet the needs of our students. The additional desktop computer will greatly enhance practical learning and help students improve their digital literacy and computer skills.

About Our School:

- Total student strength: Approximately 320 students.
- Classes: 6th to 12th standard
- Existing computer facilities:2 nos

Achievements of the School and Students:

- Dist first in Avg marks in 2026
- Four students got 100 out of 100

We sincerely request VTREE Foundation to consider our request and support our students by donating one desktop computer. Your generous contribution will significantly strengthen computer education and benefit hundreds of students for years to come.

We shall be grateful for your kind consideration and look forward to your positive response.

Thanking you.

Yours faithfully,

30/7/26

Shri.Muralidharan
Headmaster

Government Higher Secondary School, Manjini
